PROFESSIONAL SUMMARY

A versatile digital professional with more than 3 years of experience in front-end web development, IT operations, UX/UI design, and QA management. At Global Speak Academy, I oversaw a QA department with 5 specialists, handling executive-level analytics, KPI reporting, and 100% weekly teacher review coverage. SaaS platforms that were previously redesigned saw a 25% increase in subscriptions and a 40% increase in user engagement. possesses IBM Agile, CompTIA A+, and Google UX Design and IT Support certifications. demonstrated cross-disciplinary skills, including managing remote teams, leading design sprints, and creating semantic HTML and CSS. proficient in Ukrainian, Russian, and English. Open to positions in EU-based businesses in QA, UX/UI, Frontend Development, and Helpdesk/IT Support.

EXPERIENCE

UX/UI Designer

Upwork | Remote | Clients in EU, US, and Asia

2024 – Present

- Conducted qualitative and quantitative UX research - user interviews, surveys, heuristic evaluations, and A/B testing
- Designed user-centred interfaces for web and mobile platforms; developed wireframes, high-fidelity mockups, and interactive Figma prototypes
- Built and maintained design systems, component libraries, and style guides ensuring consistency across products
- Wrote semantic HTML5 and CSS3 code to ensure design accuracy, accessibility (WCAG 2.1), and responsiveness
- Delivered stakeholder presentations and collaborated with distributed cross-functional teams across time zones

Quality Assurance (QA) Manager

Global Speak Academy | Remote

Jan 2026 – Mar 2026

- Lead and supervise a team of 5+ QA Specialists - assigning weekly lesson reviews, monitoring workloads, and ensuring 100% teacher review coverage
- Manage the full QA operations pipeline: lesson recording intake, specialist assignment, tracking, escalation, and Drive archiving
- Maintain the QA Manager Dashboard - tracking KPIs, completion rates, and turnaround times across the department
- Issue QA warnings, escalate underperforming teachers, and recommend terminations to leadership in line with GSA policy
- Submit weekly QA Summary Reports and monthly QA Analytics Reports directly to the CEO
- Conduct weekly team meetings to align on rubric standards, resolve scoring inconsistencies, and coach specialists
- Collaborate with HR and executive leadership on personnel documentation, performance escalation, and compliance tracking
- Train new QA Specialists on rubric standards, documentation practices, and workflow systems

Academic Operations & Quality Coordinator

- Received, organised, and logged all lesson recordings; assigned to QA Specialists and tracked review deadlines
- Built and managed weekly teacher schedules — coordinating absences, substitutions, and emergency coverage
- Prepared weekly and monthly QA operations summaries for leadership review
- Maintained QA trackers, archives, and workflow systems with strict data confidentiality

UX/UI Designer

ASCENDtials | Remote

Jul 2024 – Oct 2024

- Led complete SaaS platform redesign - improved information architecture resulting in 40% increase in user engagement
- Created interactive prototypes and storyboards that drove a 25% increase in platform subscriptions
- Conducted user interviews, contextual enquiry, and usability testing to identify pain points and inform design decisions
- Implemented micro-interactions and animation fundamentals to improve interface polish and user satisfaction
- Collaborated in Agile/Scrum environment using Asana; facilitated design thinking workshops and design sprints
- Built and maintained WordPress pages using custom HTML/CSS, ensuring design accuracy and responsiveness

Regional Sales Manager & Visual Designer

IBS Implant | South Korea

Feb 2022 – Dec 2022

- Designed branding and promotional materials - brochures, banners, and marketing collateral for the medical sector
- Translated and adapted technical materials for international markets ensuring clear cross-cultural communication
- Collaborated with cross-functional teams to optimise sales presentations and materials

PROJECTS

EnglishPlay

English Grammar Learning Platform englishplay.org

2025-2026

An independently designed and developed freemium SaaS platform for interactive English grammar practice across levels A1–C2.

- Designed complete UX/UI from scratch - user flows, responsive layouts, and component system in dark theme
- Built multi-page frontend with HTML5, CSS3, and vanilla JavaScript including interactive exercise modals, tab navigation, search and filtering
- Integrated Supabase for user authentication (email/password, password reset), PostgreSQL database with Row Level Security, and automated profile creation via database triggers
- Implemented freemium monetisation with Stripe subscription payments (monthly / yearly plans) and Payment Links
- Built user dashboard with progress tracking, account settings, and subscription management
- Configured custom domain (englishplay.org) with DNS records, SSL certificate, and www redirect
- Set up CI/CD pipeline via GitHub → Netlify with automatic deployment on push
- Customised transactional email templates (signup confirmation, password reset) in Supabase

Stack: HTML5 · CSS3 · JavaScript · Supabase · PostgreSQL · Stripe · Netlify · Git/GitHub · Dynadot DNS
